OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEMS

The Standards Association of Zimbabwe in conjunction with various stakeholders published the national standard **SAZS OHSAS 18001: 2007: Occupational health and safety management systems - Requirements**. This standard has been revised and issued as a verbatim adoption of the internationally acclaimed **OHSAS 18001**.

The standard gives requirements for an occupational health and safety (OH& S) management system to enable an organization to control its OH & S risks and improve its performance.

If your organization wishes to: -

- establish an OH & S management system to eliminate or minimise risks
- implement, maintain and continually improve an OH & S management system
- assure itself of its conformity with its stated OH & S policy
- make a self - determination and self declaration
- seek confirmation of its conformance by parties having an interest in the organization such as, customers.
- seek certification/registration of its OH & S management system by an external organization

ARE YOU KEEN TO JOIN THE OHSAS BANDWAGON? Then SAZS OHSAS 18001 is an essential tool for you

Some of the benefits are:

- Minimization of occupational risks to employees
- Improved and safe working environment
- Compliance with relevant legislation
- Improved corporate image
- Motivated workforce
- Enhanced market opportunities
- Improved bottom line
