## SAFETY ALONG THE FOOD SUPPLY CHAIN

The Standards Association of Zimbabwe (SAZ) in consultation with several national stakeholders has adopted the internationally acclaimed **ISO 22000 Food safety management systems – Requirements for any organization in the food chain** as **SAZ ISO 22000:2005**

This standard is designed to allow all types of organizations within the food chain to implement food safety management systems. Implementation of SAZ ISO 22000 ensures safe practices from the field right up to the consumers. It integrates the principles of the Hazard Analysis Critical Control Point (HACCP)

Implementation of SAZS ISO 22000 will give you a competitive advantage in the food trade.
