

Achieving Business Excellence Through Standards

STUDENT INTERNS

The Standards Association of Zimbabwe invites applications from motivated and enthusiastic students who are seeking an exciting industrial attachment opportunity. The attachment is available Chemical & Food Technology – Harare and Finance & Administration – ICT. The purpose of the internship is to provide students with practical workplace exposure, enabling them to apply their academic knowledge in a professional environment while gaining hands-on experience, developing workplace skills, and contributing to assigned departmental projects and activities.

Key Responsibilities

- Assist with assigned tasks and projects under the guidance of supervisors.
- Apply theoretical knowledge to practical workplace situations.
- Adhere to organizational policies and maintain confidentiality at all times.
- Demonstrate professionalism and eagerness to learn through active participation.
- Provide regular progress updates or reports to the supervisor/mentor.

Qualifications

Applicants should be currently enrolled in a relevant degree programme at a recognized university, preferably in any of the following fields:

- **Chemistry, Biological Sciences or Biochemistry** for the Chemical & Food Technology Division.
- **Computer Science or related fields** for the ICT Section.

How to Apply

Interested candidates who meet the above requirements should submit their application, together with a detailed CV, to hr@saz.org.zw by 23 August 2026

SAZ is committed to providing meaningful learning opportunities and promoting an inclusive environment that supports student development and professional growth.
